### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

- 1) ☐ Responsive to communication(s) filed on \_\_\_\_.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

## DETAILED ACTION

### *Response to Amendment*

The amendment filed on 3/12/2005 and the remarks presented therewith have been carefully considered but are moot in view of the new ground(s) of rejection.

### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

1. Claims 4 and 6 are rejected under 35 U.S.C. 102(b) as being anticipated by Snee.
2. Re claim 4, Snee discloses a rope sling comprising a body (from section 20 to 12a) capable of holding and supporting meat or poultry, and at least two handles (front and rear loops 9,10 and 7,8) attached at opposing peripheral edges of the body for lifting the combination of the body and the handles are comprised entirely of one interwoven string or cord (page 1, lines 21-25; lines 54-55; lines 56-58, lines 79-81; page 2, lines 35-36) interwoven into a net with a

plurality of apertures, to form a body and loops at opposing peripheral edges of the body to form the handles (fig. 1).

3. Re claim 6, Snee discloses a method including providing a cord (rope 19) comprising the steps of interweaving a continuous string or cord (page 1, lines 21-25; lines 54-55; lines 56-58, lines 79-81; page 2, lines 35-36) to form a net conforming to the size of meat or poultry depending on the size of the meat or poultry, and at least two handles attached to opposing peripheral edges of the net (front and rear loops 9,10 and 7,8).

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claim 5 is rejected under 35 U.S.C. 103(a) as being unpatentable over Snee in view of Snyder. Snee uses a simple rope (19), not butcher's twine. Snyder uses butcher's twine (13) to prepare and support a fowl. It would have been obvious to one of ordinary skill in the art to modify the net of Snee as taught by Snyder to form the net with butcher's twine as butcher's twine is known to be strong and sturdy for carrying and supporting objects.

***Allowable Subject Matter***

Claim 8 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

Applicant's arguments with respect to claims 4-6,8 have been considered but are moot in view of the new ground(s) of rejection as described above.

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
